**Workshop Info**

Astrology is an ancient and sacred science, firmly within the tradition of wisdom teachings. It is one of the languages of the cosmos and connecting with the sky stories can facilitate an alchemical life and bring us a richer understanding of our soul's purpose. Astrology provides us with the knowing of universal timing.

Conscious Movement is also an ancient practice and language that brings us closer to our own inner wisdom, connecting us to our core resources. Movement navigates us past the thinking mind and brings alive the subconscious language of habitual patterns, emotions and our core responses to life. As the galaxy keeps turning, different energies come into focus. If we can dance with the energy we can move more freely and feel more deeply our connection with the universal spirit.

During this retreat we will take you on a very personal and universal journey to explore the Moons Nodes in your chart. The nodes embody our inner drive for evolution. The north node, the Dragon's head, is a questing point where new experiences enter while the south node, the Dragon's tail is a place of familiarity and the place we retreat to when feeling vulnerable. Exploring the signs and house placements of your Moon and your Dragon can uncover more of your soul's journey and purpose.

Marg will provide you with your birth chart and we will unravel your nodal story through storytelling and movement. Kate-Marie will support us to embrace our stories, integrate patterns and begin new stories and create the neural pathways to support these stories.

No previous knowledge or experience is needed as this experiential work we will accommodate all levels of understanding and abilities

**About Marg**

Marg's passion for astrology was awakened in the early 70s. It provided a trajectory of enquiry that took her far from her lived experience and opened new vision and imaginings. She has studied formally with Maurice Silver, Brian Clark, Glennys Lawton and Bernadette Brady over the intervening years and her passion has not ceased. She also brings

with her a rich background as a trained educator and psychologist, working with young people and adults from diverse backgrounds.

Marg is passionate about listening and learning of people's stories and bringing them alive in multiple ways. Her natural ability as a storyteller brings a richness to learning astrology that is unique, accessible and practical. Marg studied ancient, medieval and modern astrology and brings a fusion of these traditions to her courses along with the invitation of how to use ritual and ceremony in astrology. She gives personal chart readings and facilitates Astro Camps in the Central Australian desert along with other workshops / retreats around Australia and overseas.
