Soul Motion Teacher Training 2023 - 2024

mastery to mystery

The Soul Motion: Mastery to Mystery Teacher Training, is best experienced as a journey into the heart of the person who dreams of becoming a teaching of this work.

It begins with a deep dive into specific ways to meet the rise and fall of each moment with grounded embodiment and presence. We hold an abiding focus on exploring, developing and nurturing an intimate relationship with your inner life. Being deeply connected and self resourced is the essential wellspring of your unique teaching of Soul Motion. You will be guided and supported in this investigation with individual mentoring, provided by gifted Soul Motion Teachers, and on-line experiences led by the groups' mentors.

At the midway point we turn our attention to the rich array of practical skills that strengthen your ability to step into the circle of teaching and leadership. The nature of class structure, seeing and sensing the room, musical magic and the power of poetry and storytelling are studied. In this portion you will be personally mentored by the leaders of this training, and you will find yourself teaching in supported small groups.

Enriching, deep, practical, and individually supportive, this program is specifically crafted to meet and accompany you on the journey of becoming a Soul Motion Teaching. Whether it is a whisper, a compelling curiosity or an irresistible pull, we invite you to take this invitation in and step into the living process of becoming a Soul Motion Teaching. We look forward to embarking on this journey with you.

Structure:

Consisting of three, rich, in-person immersions, and enhanced by the support of on-line experiences, this unique format brings together the best of both worlds - The beauty of being together in the same space, and the intimate consistency that on-line connections provide.

**A full year in-person
and on-line training**

Led by Michael Molin-Skelton,
Kate-Marie Mutsaers, Winky Wheeler
and Camilla Steen Larsen

Becoming an
Embodied Presence

Sharing your Gifts

The path to becoming a Soul Motion Teacher is full of support, and the exceptional format of this Training offers the best of all worlds to practice supported teaching: in person and on-line.

Schedule Details:

In Person 1: 6 Day Training at Casa Sangam • September 25 - October 1, 2023

We begin together with an in person residential retreat where we focus on expanding your somatic understanding of the Soul Motion movement platforms: Pause Presence, Orbit Orientation, Echo Inspiration. Through guided experiences and embodied explorations you will deepen your connection and trust in your unique inner wisdom, and establish connections with your co-hearts traveling this journey with you.

On-line: Classes with Mentors • October 9, 23, 2023 • November 6, 20, 2023 • December 4, 11, 2023

The space between the first two in-person retreats is a time for delving deeper into one of the Soul Motion Movement Platforms. With the delicious support, guidance and perspectives of your personal mentor, you will develop your own awareness practice that originates in your movement experiences and moves into your everyday life.

Included in this portion of the training are wonderful weekly on-line movement classes which are taught by the mentors. (1.5 hours each session)

On-line: February 5, 12, 19, 2023 • March 4, 11, 18, 2024 • (1.5 hours each session)

After the holidays we reconvene in the on-line space to share the insights, experiences and wonder each participant has discovered in their inquiry. Offering your wisdom is an essential part of Soul Motion, as your reflections and perspectives add to the knowledge of each of us. Together we listen and learn from the breadth of our diversity, while resting in the notion that all points of view expand the richness of this work we love.

In Person 2: 10 Day Training at Casa Sangam • April 1 - 10, 2024

This ten day gathering ushers in the practical development of your teaching skills. This includes understanding the nature of class structure, seeing and sensing the room, musical ministry and the use of poetry and storytelling. Underlying this learning is the nurturing of your ability to be a resourced, creative and resilient teacher and person.

From this point you will be personally mentored by Michael, Winky, Kate-Marie and Camilla.

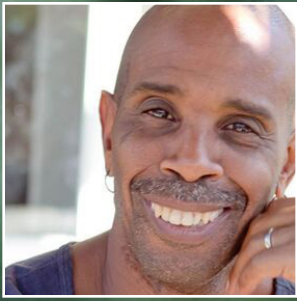

On-line: May - September, 2024 • (dates tba)

As we move back into the on-line environment, you will be in a small group of co-hearts. Each person in each group will have opportunities to lead exercises and begin to your new skills. You will be teaching to your small group, on-line.. Each group will have one of the leaders who provide immediate support and guidance. Together we celebrate each success.

We believe that inspirational teachers develop through practice, practice, practice.

In Person 3: 7 Day Training at Casa Sangam • September 29 - October 6, 2024

We gather for our final time together. This retreat includes teaching practice, reflection, and further guidance in stepping onto the teaching path. We explore the importance of behind-the-dance-floor skills that each of us need: marketing, ethics, and collaboration. Of course, built into this time is an ongoing celebration of the journey.
